Uro-Trapper System

Lock fluid drainage device into place w/easy-mount clamps

Patient positioning is never compromised nor is the surgeon's access to the patient with this flexible, surgical fluid containment system that attaches to any general surgical table.

Features

- *Contains fluids during hysteroscopy, cystoscopy, urologic and oncologic surgical procedures*
- *Flexible drape support provides unobstructed surgeon access to surgical site*
- *Once compressed by surgeon's weight during procedure, the support springs back to allow optimal fluid drainage*
- *Mounts effortlessly to any surgical O.R. table with integral clamps*
- *Clamps are included*

#800-0096 Uro-Trapper System

Disposable Uro-Trapper Drain Bags

Offers open mesh filter that allows for rapid drainage

Contains fluids during urologic hysteroscopy, cystoscopy and oncologic surgical procedures.

Features

- Tube is 64"L x 7/8"D and 20" compressed
- Durable, not made with natural rubber latex bags
- Flexible hose is compatible with all suction systems for accurate fluid measurement
- Choose Non-Sterile or Sterile
